If you believe your vehicle may qualify for a value adjustment due to high mileage, please complete this form, attach third party documentation and submit to the Commissioner of the Revenue. Documentation must be legible and must indicate mileage on or before January 1st of the tax assessment year seeking such adjustment. Documentation may be in the form of a state inspection receipt (displaying year, make, model and VIN), oil change or service center repair receipt, or simply have the garage read your odometer and document it. In order to ensure the highest value reduction, submit documentation indicating the mileage as close to January 1st as possible. By law, if mileage is taken into consideration as an adjustment to January 1st fair market assessed value, the adjustment must be determined using the mileage table included with the January issue of the NADA (National Automobile Dealers Association) guide.

***Please note that the documentation must be submitted annually until the mileage reaches 245,001
High mileage adjustments are not available on motorcycles, motor homes, large trucks or trailers***
